Food Processing Wastewater Treatment

Anping Web Wire Mesh Co.,Ltd.

Wedge Wire Screen Tubes

Standard wedge wire wrapped screen pipe
(external circumferential wire and axial internal support rods) is a kind of strainers that flow from outside to inside filtration

Reverse formed wedge wire screen pipe
(internal circumferential wire with external axial support rods) is a kind of strainers that flow from inside to outside filtration.

Internal axial wedge wire screen pipe (internal axial wire with external circumferential support rods) is a kind of strainers that flow from inside to outside filtration.

Introduction

The wedge wire screen tubes are widely used in a multitude of food-processing wastewater treatment. Wastewater from food processing has bacteria and food, if discharge untreated effluent in to a river or other receiving body of water, the river and water will be polluted. Pre-treatment can remove the debris from wastewater, which will minimize harm to the environment and help reduce your operating costs.

Technical Parameters

When ordering, please specify:

1. Wedge Wire Screen Type

Standard wedge wire wrapped screen pipe, reverse formed wedge wire screen pipe, Internal axial wedge wire screen pipe

2. Slot Hole

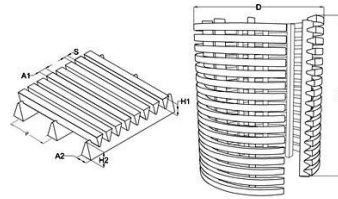

3. Profile Wire

Triangle wire

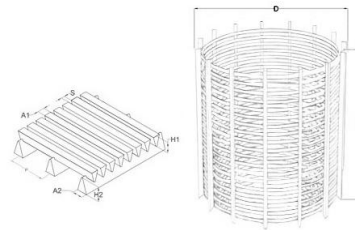

4. Support Rod

Triangle wire, round rod, flat bar, wedge wire

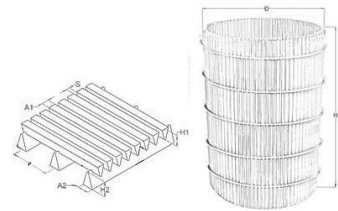

5. Support Rod Pitch

Reverse formed wedge wire screen pipe

Reverse formed wedge wire screen pipe

Internal axial wedge wire screen pipe
