Light Covers

Anping Web Wire Mesh Co.,Ltd.

Wedge Wire Screen Tube for Light Covers

Introduction

Wedge wire light covers also called light masts. It's manufactured by wrapping and welding stainless steel V-shaped profile wire cylindrically around support rods under automatic specialized wedge wire screen machine. Each profile wire and support rod is contacted by resistance welding. That ensure the wedge wire tube has advantages of stable structure and high strength.

Wedge wire light covers are widely used in hotels, malls, parks, high grade residences and business facilities, highlights the modern and fashionable style.

Products
