Wedge Wire Screen for Sugar Mill

Introduction

Wedge wire cylindrical screen and centrifuge basket are widely used in the sugar industries for dewatering processes.

Wedge wire cylindrical screen

Wedge wire screen rotary drums are widely used in the sugar industry for separating sugar juice from cane fibre and drying wet crystalline sugar.

Wedge screen baskets

Continuous centrifuge basket is guaranteed to provide a high mechanical strength, A precise slot opening and larger percentage of open area, increasing the amount of sugar crystal recovery. The self-supporting structure of the basket is designed and engineered to withstand the high stresses and load conditions of the sugar industry.
